

Curriculum Coordinator Retreat

SMCAA Curriculum Coordinators' Retreat is an opportunity for curriculum coordinators to learn – share – reflect and create plans. This summer's agenda will focus on 'the curriculum changes the Common Core State Standards *will require* if districts are to meet the new achievement targets and standard goals.'

Participants will deal with 'How to cultivate an environment for focused change, in curriculum, that guides enduring understanding without being overwhelmed by the stress of conflict and confusion.

Those who have participated in previous CD Retreats state that, "One of the best parts of the Retreat is the collaboration where coordinators share differing approaches to similar challenges."

"I learned so much...had time to reflect and had my thinking stretched. The Retreats have been a major help to me as a curriculum leader. We worked hard and had lots of fun!"

Michelle Mitchell, Marshfield

"WOW! This was a great way to spend 3 days of my summer break! The networking allowed me to "wrap my brain around" where I need to start and who I can call for help! Great for new and experienced directors! Really glad the experienced ones were willing to share and mentor me."

Trisch Vessar, Madison
